

Project : Lizzy
Date Release : 10/13/2016
Public Release Notes-Version 3.1.1.16 (Final Release)

◆ **Accounting**

- Added ability to tag items as Cross Shipped on the purchase order so that note shows up on the special order list but the items don't show up on the backorder report since they are not back ordered, they will just take an extra few days to arrive because they were shipped from another warehouse farther away. (93738)
- Added location droplist to the Currently on Order report (83607)
- Added ability to view only unprinted checks from the check register and also made the printed flag a clickable object so that you can easily set checks either way quickly. (93730)

◆ **Invoicing**

- Contact email address has been added to major unit sale invoice printout (80020)

◆ **Parts**

- Added radio buttons at the top of the Inventory Valuation report to toggle between Vendor and Standard Category (91506)

◆ **Serialized**

- Added Brand, Type, and Date Due when Unsold is checked on the Unit Aging report (86539)
- Added new function to test for whether dealer wants to update unit defaults based on company settings and if it is turned off there it will never updated the defaults for any units. (61179)
