Public Release Notes-Version 3.1.1.19 (Final Release)

◆ **F&I Forms**

- Added feature to add and print forms from a service ticket. (94606)
- Fixed issues with Illinois ST-556 sales tax transaction return form. (95209)

◆ **Interfaces**

- Polaris file export has been updated per Polaris specifications. (92878)

◆ **Invoicing**

- Fixed issue with page 2 of the sales & receivable report not limiting invoice breakdown per manufacturer to only invoices from the webstore you selected. (95429)

◆ **Parts**

- Changed Inventory Adjustment control so that the list of current unprocessed adjustments ("Your Current Adjustments") sorts based on the last item scanned instead of by part number. Now, the last item scanned will show at the top of this list. (95885)
- Fixed issue with MTD parts being erroneously marked obsolete. Corrected the issue and updated the file for all affected customers. (95401)

◆ **Payroll**

- Fixed issue with YTD Calculation for FICA including the current check and making it prematurely hit the cap. (95046)
